## Our Apprenticeships

### ACA Apprenticeships

Delivered under the Level 7 apprenticeship standard, our ACA training is a three year programme that includes 450 days technical work experience, 15 exams, with additional training provided by Mercia to structure your interpersonal development.

Your professional training will be provided by Kaplan Financial Limited, a leading centre of excellence for professional qualification tuition that offers small class sizes, expert tutors and delivers above average pass rates.

Our students build up a broad range of auditing and accounting skills and have exposure to both the commercial and not for profit sectors. In addition, students have the opportunity of a secondment in the firm's tax department.
